

## EXTENSION OF GROUNDWATER PLANT DONAUINSEL NORTH AUSTRIA

The MA 31 Vienna Water Department of the City of Vienna has been operating a groundwater plant with eight horizontal filter wells and a capacity of 500 l/s or 43,200 m<sup>3</sup>/day at the Danube Island North site since 2015. The groundwater plant Donauinsel Nord is now being expanded by a further 1,000 l/s capacity including pumping station and UV disinfection plant.

On behalf of the general designer AWE Water Engineering GmbH, convex ZT GmbH is preparing the civil works permit design and in the following, the tender and execution design.
